MATERIAL SAFETY DATA SHEET

SECTION I

MANUFACTURER: Paces Corporation

SAFETY ADDRESS: One Well Street

CITY, STATE & ZIP: Fall River, MA 02720

EMERGENCY TELEPHONE: (508) 679-5538

CHEMICAL NAME &Storming: Petroleum Solvent

CHEMICAL FAMILY: Hydrocarbon Mixture

ACID NUMBER: Gallon: 12750

baz: 313751

STORAGE: Mixture

SECTION II - HAZARDOUS INGREDIENTS

"This component may contain 1.5% of 

"1,1,1-TRIS (2-METHYL-1-

SECTION III - PHYSICAL DATA

MEASUREMENT "VV" 170-600

SPECIFIC GRAVITY (d20/4) 0.809

VAPOR PRESSURE (mmHg) 1.0

ODOR PERCENT VOLATILE: 100

SOILABILITY IN WATER: Immeasurable (<3%)

EVAPORATION RATE: Less than 1

COLOR: Off White Clear

HYDROGEN TYPE: NO C.

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

FLAME POINT: (>1500°F) 105°F

FLASH POINT: (closed cup) 105°F

FIRE POINT: 1.0

FLASH: 6.5

INTERTERVAL MEDIUM: Extinguish with dry chemical, CO2, or a universal type foam

SPECIAL FIRE FIGHTING PROCEDURES AND FIRE AND EXPLOSION HAZARD: Self-contained breathing apparatus adequate equipment for five minutes. Water spray may be useful in minimizing hazards and chilling containers exposed to heat and flame. Avoid spilling burning with water and foam. Avoid spilling burning with water and foam. Never use welding or cutting torches or heat containers (even empty) because production (even over red heat) can ignite explosively. All 3 gallon gas and drums should be provided and stored inside some materials in possible fixed. Vents are not less than 100°F and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights. Other flames and ignition sources at locations distant than material handling point.
SECTION IV - FIRE AND EXPLOSION HAZARD DATA (CONT'D)

UNUSUAL FIRE AND EXPLOSION HAZARD DATA

SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: see Section II

EFFECTS OF OVEREXPOSURE

EYES: Exposure may cause mild eye irritation. Symptoms may include stinging, tearing and redness.

SKIN: Exposure may cause mild skin irritation. Prolonged or repeated exposure may dry the skin. Symptoms may include redness, burning, drying and cracking of skin burns. Pre-existing skin disorders may be aggravated by exposure to this material. Skin absorption is possible but hazards effects are not expected from this route of exposure under normal conditions of handling and use.

INHALATION (BREATHEING): Exposure to vapor or mist is possible. Short term inhalation of sleep is low. Breathing small amounts during normal handling is not likely to cause harmful effects. Breathing large amounts may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits. Symptoms of exposure may include respiratory (sore throat, respiratory tract problems), pre-existing lung disorders (e.g. asthma, lung conditions may be aggravated by exposure to this material) and central nervous system depression (dizziness, drowsiness, weakness, fatigue, nausea, headache, unconsciousness). Inhalation (inhaled): Single dose oral toxicity is low. Swallowing small amounts during normal handling is not likely to cause harmful effects. Swallowing large amounts may be harmful. Symptoms may include gastrointestinal symptoms (nausea, vomiting, diarrhea) and central nervous system depression (dizziness, drowsiness, weakness, fatigue, nausea, headache, unconsciousness). This material can enter the lungs during swallowing or vomiting and cause lung inflammation and/or damage.

EMERGENCY AND FIRST AID PROCEDURES

EYES: Flush with water for 15 minutes. Seek medical help.

SKIN: Wash with mild soap and water solution and seek medical attention.

INHALATION: Remove to fresh air. Apply artificial respiration if breathing stops. Seek medical attention immediately.

INGESTION: If swallowed, do not induce vomiting. Seek medical attention immediately.

PRIMARY ROUTE(S) OF ENTRY: Inhalation, skin contact and eye contact.

EFFECTS OF CHRONIC EXPOSURE: Based on the available information, this material cannot be classified with regard to carcinogenicity. This material is not listed as a carcinogen by IARC, NCI or OSHA.

SECTION VI - REACTIVITY DATA

STABILITY: Stable.

CONDITION TO AVOID: Heat, sparks, fire, open flame and all other sources of ignition.
SECTION VI - REACTIVITY DATA (CONT'D)

INCOMPATIBILITIES (MATERIALS TO AVOID): Strong oxidizing agents, strong acids or bases and selected alcohols.

HAZARDOUS DECOMPOSITION PRODUCTS: Thermal decomposition may yield carbon monoxide and/or CO2.

HAZARDOUS POLYMERIZATION: Will not occur.

CONDITIONS TO AVOID: N.A.

SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED:

SMALL SPILL: Absorb liquid on versiculite, floor absorbent or other absorbent material.

LARGE SPILL: Eliminate all ignition sources (flares, flames, including pilot lights, electrical sparks). Persons not wearing protective equipment should be excluded from area of spill until cleanup has been completed. Stop spill at source. Prevent from entering drains, sewers, streams or other bodies of water. Prevent from spreading. If runoff occurs, notify authorities as required. Pump or vacuum transfer spilled product to clean containers for recovery. Absorb unrecoverable product, transfer contaminated absorbent, soil and other materials to containers for disposal. Prevent runoff to sewers, streams or other bodies of water. If runoff occurs, notify proper authorities, as required, that a spill has occurred.

WASTE DISPOSAL METHOD:

SMALL SPILL: Dispose of in accordance with all local, state and federal regulations.

LARGE SPILL: Dispose of in accordance with all applicable local, state and federal regulations.

SECTION VIII - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION (SPECIFIC TYPE): Self-contained breathing apparatus for concentrations above PEL limits.

VENTILATION:

LOCAL EXHAUST: Adequate ventilation required.

MECHANICAL (GENERAL): Yes

SPECIAL: No smoking.

OTHER: N.A.

PROTECTIVE GLOVES: Impermeable gloves.

EYE PROTECTION: Safety goggles.

OTHER PROTECTIVE EQUIPMENT: It is suggested that a source of clean water be available in work area for flushing eyes and skin. Impermeable clothing should be worn as needed.

SECTION IX - STORAGE AND SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Keep away from heat, sparks and open flame. Use with adequate ventilation. Keep container closed.

OTHER PRECAUTIONS: Personnel should avoid inhalation of vapors. Personal contact with the product should be avoided. Should contact occur, remove saturated clothing. Clean affected areas with water.
SECTION IX - STORAGE AND SPECIAL PRECAUTIONS (CONT'D)

UPTHE NOTIFICATION INFORMATION: The State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Prop 65) develops a list of chemicals that require specific warnings relating to cancer and/or reproductive toxicity. This product contains the following chemicals subject to the reporting requirements of the State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Prop 65).

Chemical   CAS #     Quantity

Toluene**   108-88-3   50.0 ppm
Benzene**   71-43-2   <1 ppm

The warning on the product states:

WARNING: USE OF THIS PRODUCT WILL EXPOSE YOU TO BENZENE WHICH IS KNOWN TO CAUSE CANCER AND TO TOLUENE WHICH IS KNOWN TO CAUSE BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM.

**Not included in Section II as this chemical is less than 1% of the formula.

DISCLAIMER OF EXPRESSED AND IMPLIED WARRANTIES

The information in this document is believed to be correct as of the date issued. However, no warranty of merchantability, fitness for any particular purpose or any other warranty is expressed or is to be implied regarding the accuracy or completeness of this information. The results to be obtained from the use of this information on the product, the safety of this product on the hazards related to its use. This information and product are furnished on the condition that the person receiving them shall make its own determination as to the suitability of the product for his particular purpose and on the condition that he assumes the risk of its use thereof.
