MARY WILLIAMS
00000000 MSDS NO. 1220

MANUFACTURER'S NAME
EXXON CHEMICAL COMPANY

ADDRESS
DISTRIBUTED BY W.M. BARK & CO.
Memphis, TN 38113 USA

EMERGENCY TELEPHONE #
901-779-0100

EMERGENCY CONTACT
W.M. Bark Technical Services

EMERGENCY INFORMATION
"3E" #4 MEDICAL EMERGENCY #. 800 451-8346.
SEE SECTION 5 FOR ADDITIONAL EMERGENCY INFORMATION

INVENTORY ITEM #
GCL99992

CHEMICAL FORMULA
1220

PRODUCT NAME
EXXON CLEAR-LITE

REVISED BY
W.M. Bark Technical Services

REVISION DATE
8/11/1999

ADDITIONAL REGULATORY INFO

The time weighted average (TWA) value described herein is a threshold limit value (TLV) as established by ACGIH. The permissible exposure limit (PEL) is a value established by OSHA.

CALIFORNIA (PROPOSITION #65)

Ingredients in this product are not listed on California's Prop 65 list: "Chemicals Known to the State to Cause Cancer or Reproductive Toxicity."

SEC. 113 SUPPLIERS NOTIFICATION

The following information must be included in all MSDS that are copied and distributed for this material.

This product contains the following toxic chemicals subject to the reporting requirements of Section 113 of the Emergency Planning and Community Right-To-Know Act of 1986 (40CFR 372):

CLEAR ALL ACT

This formula contains no known ozone depleting chemicals.
Hazard Communication Standard
This document is prepared in accordance with the OSHA Hazard Communication Standard (29 CFR 1910.1200). This MSDS contains thirteen (13) sections.

The following effects and/or symptoms are not expected to be experienced by persons who use this product properly and according to all instructions, precautions, and warnings; however, should the product user experience any questionable effects or symptoms, the product user should immediately seek medical attention.

Inhalation Acute Exposure Effects
May cause dizziness, headache, watering of eyes, eye irritation, weakness, nausea, muscle twitches, and depression of central nervous system. Severe overexposure may cause convulsions, unconsciousness, and death.

Skin Contact Acute Exposure Effects
None known.

Eye Contact Acute Exposure Effects
May cause irritation.

Ingestion Acute Exposure Effects
Harmful or fatal if swallowed. May cause nausea, weakness, muscle twitches, gastrointestinal irritation, and diarrhea. Severe overexposure may cause convulsions, unconsciousness, and death.

Chronic Exposure Effects
Reports have associated repeated and prolonged overexposure to solvents with neurological and other physiological damage. May cause jaundice, bone marrow damage, liver damage, anemia, and skin irritation.

Medical Conditions Aggravated
None known.

Primary Route of Exposure
Inhalation, ingestion, and dermal.

SECTION 5. FIRST AID MEASURES

Inhalation
If user experiences breathing difficulty, move to air free of vapors. Administer oxygen or artificial respiration until medical assistance can be rendered.

Skin Contact
Wash with soap and large quantities of water and seek medical attention if irritation from contact persists.

Eye Contact
Flush with large quantities of water for at least 15 minutes and seek immediate medical attention.

Ingestion
Do not induce vomiting. Call your poison control center, hospital emergency room, or physician immediately.
NOTE TO PHYSICIAN
This formula is registered with POISONDEX.
Call your local poison control center for further information.

SECTION 6. FIRE FIGHTING MEASURES

ESTA

FLASH POINT           145.00 F  62.77 C
LOWER EXPLOSION LIMIT 1.0

GENERAL COMMENTS
OSHA FLAMMABILITY: Class II

EXTINGUISHING METHOD
Use carbon dioxide, dry powder, or foam.

FIRE FIGHTING PROCEDURES
Self-contained respiratory protection should be provided for fire fighters fighting fires in buildings or confined areas. Stay away from heads of containers that have been exposed to intense heat or flame.

FIRE AND EXPLOSION HAZARDS
CAUTION! COMBUSTIBLE. KEEP AWAY FROM HEAT, SPARKS, FLAME AND ALL OTHER SOURCES OF IGNITION.

SECTION 7. ACCIDENTAL RELEASE MEASURES

CLEAN-UP
Keep unnecessary people away; isolate hazard area and deny entry. Stay upwind, out of low areas, and ventilate closed spaces before entering. Shut off igniting sources; keep flares, smoking or flames out of hazard area. SMALL SPILLS: take up liquid with sand, earth or other noncombustible absorbent material and place in a plastic container where applicable. LARGE SPILLS: dike far ahead of spill for later disposal.

For transportation related spills contact Chestrec at 1-800-424-9300 for emergency assistance.

MATERIAL DISPOSAL
Dispose in accordance with applicable local, state and federal regulations.
STORAGE
Keep container tightly closed when not in use. Store in a cool, dry place. Do not store near flames or at elevated temperatures.

HANDLING
Read carefully all cautions and directions on product label before use. Since empty container retains residue even after container is empty, dispose of empty container according to all regulations. Do not reuse this container.

TRANSPORTATION
For D.O.T. information, contact W.M. Barr Technical Services Department.

VENTILATION PROTECTION
Use only with adequate ventilation to prevent build-up of vapors. Open all windows and doors. Use only with a cross ventilation of moving fresh air across the work area. If strong odor is noticed or you experience slight dizziness, headache, nausea, or eye-watering - STOP - ventilation is inadequate. Leave area immediately.

RESPIRATORY PROTECTION
For OSHA controlled work place and other regular users - Use only with adequate ventilation under engineered air control systems designed to prevent exceeding appropriate TLV. For occasional use, where engineered air control is not feasible, use properly maintained and properly fitted NIOSH approved respirator for organic solvent vapors. A dust mask does not provide protection against vapors.

SKIN PROTECTION
Wear impermeable gloves. Gloves contaminated with product should be discarded. Promptly remove clothing that becomes soiled with product.

EYE PROTECTION
Safety glasses, chemical goggles or face shields are recommended to safeguard against potential eye contact, irritation, or injury. Contact lenses should not be worn while working with chemicals.

OTHER PROTECTION
Various application methods can dictate use of additional protective safety equipment, such as impermeable aprons, etc., to minimize exposure. A source of clean water should be available in the work area for flushing eyes and skin. Do not eat, drink, or smoke in the work area. Wash hands thoroughly after use. Before reuse, thoroughly clean any clothing or protective equipment that has been contaminated by prior use. Discard any clothing or other protective equipment that cannot be decontaminated, such as gloves or shoes.

VOLATILE %
100
by weight

ROLLING POINT
GT 216.00 F 191.11 C ROLLING RANGE: 376 F - 401 F
SECTION 11. PHYSICAL AND CHEMICAL PROPERTIES

VAPOR DENSITY (Air = 1.0)
HEAVIER THAN AIR

EVAPORATION RATE
LOWER THAN N-BUTYL ACETATE

BULK DENSITY
6.450

LBS/GAL AT 75 DEGREES F

pH FACTOR
N/S

PHOTOCHEMICALLY REACTIVE
NO

MAX V.O.C.
774 grams per liter (excluding exempt solvents & water)

MAX VAPOR PRESSURE
(of the V.O.C.) 1 mm Hg at 20 degrees C

SECTION 13. ADDITIONAL INFORMATION

INCOMPATIBILITIES
Incompatible with strong oxidizing agents.

DECOMPOSITION
Thermal decomposition may produce carbon monoxide, and carbon dioxide.

POLYMERIZATION
Will not occur.

STABILITY
Stable

IMPORTANT NOTE
The information contained herein is presented in good faith and believed to be accurate as of the effective date shown above. This information is furnished without warranty of any kind.
