SECTION I

MANUFACTURER’S NAME: Parks Corporation
STREET ADDRESS: One West Street
CITY, STATE & ZIP: Fall River, MA 02720
EMERGENCY TELEPHONE: (508) 679-5938

CHEMICAL NAME & SYNONYMS: Petroleum Solvent
CHEMICAL FAMILY: Aliphatic Petroleum

TRADE NAME: ACME VM&P NAPHTHA
SIZES/CODES: Gallon #12785, Quart #13299
FORMULAS: Complex mixture of Petroleum Hydrocarbons

REvised: 05/19/98

SECTION II - HAZARDOUS INGREDIENTS

PAINTS, PRESERVATIVES & SOLVENTS

SOLVENTS

SECTION IV - FIRE AND EXPLOSION HAZARD DATA

HMIS RATING
Health: 1; Flammability: 3; Reactivity: 0; Protective Equipment: C

FLASH POINT (METHOD USED): TAG cc 7°C (45°F).

FLAMMABLE LIMITS
LEL: 1.0%
UEL: 6.0%

EXTINGUISHING MEDIA: Foam, dry chemical, CO2, water fog or spray.

SPECIAL FIRE FIGHTING PROCEDURES: Use air-supplied breathing equipment for enclosed areas. Cool exposed containers with water spray. Avoid breathing vapor or fumes.

UNUSUAL FIRE AND EXPLOSION HAZARDS DATA: Vapors are heavier than air and may travel along the ground or be moved by ventilation and ignited by heat, pilot lights, other flames and ignition sources at locations distant from material handling point. Never use welding or cutting torch on or near containers (even empty) because product (even just residue) can ignite explosively. Auto-Ignition Temp 450°F.
SECTION V - HEALTH HAZARD DATA

THRESHOLD LIMIT VALUE: See Section II.

EFFECTS OF OVEREXPOSURE

EYE CONTACT: Exposure can cause mild eye irritation. Symptoms may include stinging, tearing, redness.

SKIN CONTACT: Exposure may cause mild skin irritation. Prolonged or repeated exposure may dry the skin. Symptoms may include redness, burning, drying and cracking and skin burns. Skin absorption is possible, but harmful effects are not expected from this route of exposure under normal conditions of handling and use.

INGESTION (SWALLOWING): Single dose oral toxicity is low. Swallowing small amounts during normal handling is not likely to cause harmful effects. Swallowing large amounts may be harmful. This material can enter the lungs during swallowing or vomiting and cause lung inflammation and/or damage.

INHALATION: Exposure to vapor or mist is possible. Short term inhalation toxicity is low. Breathing small amounts during normal handling is not likely to cause harmful effects. Breathing large amounts may be harmful. Symptoms are more typically seen at air concentrations exceeding the recommended exposure limits.

SYMPTOMS OF EXPOSURE: Signs and symptoms of exposure to this material through breathing, swallowing and/or passage of the material through the skin may include gastrointestinal irritation (nausea, vomiting, diarrhea), irritation (nose, throat, respiratory tract), central nervous system depression (dizziness, drowsiness, weakness, fatigue, nausea, headache, unconsciousness) and death.

TARGET ORGAN EFFECTS: No data.

DEVELOPMENTAL INFORMATION: No data.

CANCER INFORMATION: Based on the available information, this material cannot be classified with regard to carcinogenicity. This material is not listed as a carcinogen by IARC, NTP or OSHA.

OTHER HEALTH EFFECTS: No data.

PRIMARY ROUTES OF ENTRY: Inhalation, skin contact, eye contact.

EMERGENCY AND FIRST AID PROCEDURES

EYE CONTACT: If symptoms develop, immediately move individual away from exposure and into fresh air. Flush eyes gently with water for at least 15 minutes while holding eyelids apart. Seek immediate medical attention.

SKIN CONTACT: Remove contaminated clothing. Wash exposed area with soap and water. If symptoms persist, seek medical attention. Launder clothing before reuse.

INGESTION (SWALLOWING): Seek medical attention. If individual is drowsy or unconscious, do not give anything by mouth. Place individual on the left side with the head down. Contact a physician, medical facility or poison control center for advice about whether to induce vomiting. If possible, do not leave individual unattended.

INHALATION: If symptoms develop, move individual away from exposure and into fresh air. If symptoms persist, seek medical attention. If breathing is difficult, administer oxygen. Keep person warm and quiet. Seek immediate medical attention.

NOTE TO PHYSICIANS: Pre-existing disorders of the following organs (or organ systems) may be aggravated by exposure to this material: skin.

SECTION VI - REACTIVITY DATA

STABILITY: Stable.

CONDITIONS TO AVOID: Keep away from heat, sparks, open flame and all other sources of ignition.
SECTION VI - REACTIVITY DATA (CONT'D)

INCOMPATIBILITY (MATERIALS TO AVOID): Strong oxidants like Liquid Chlorine, Concentrated Oxygen, Sodium or Calcium Hypochlorite.

HAZARDOUS DECOMPOSITION PRODUCTS: Fumes, smoke and Carbon Monoxide, in the case of incomplete combustion.

HAZARDOUS POLYMERIZATION: Will not occur.

CONDITIONS TO AVOID: N.A.

SECTION VII - SPILL OR LEAK PROCEDURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

SMALL SPILL: Absorb liquid on vermiculite, floor absorbent or other absorbent material and transfer to hood.

LARGE SPILL: Eliminate all ignition sources (flares, flames, including pilot lights, electrical sparks). Persons not wearing protective equipment should be excluded from area of spill until cleanup has been completed. Stop spill at source. Prevent from entering drains, sewers, streams or other bodies of water. Prevent from spreading. If runoff occurs, notify authorities as required. Pump or vacuum transfer spilled product to clean containers for recovery. Absorb unrecoverable product. Transfer contaminated absorbent, soil and other materials to containers for disposal. Prevent run-off to sewers, streams or other bodies of water. If run-off occurs, notify proper authorities as required, that a spill has occurred.

WASTE DISPOSAL METHOD: Assure conformity with applicable disposal regulations. Dispose absorbed material at an approved disposal site or facility.

SECTION VIII - SPECIAL PROTECTION INFORMATION

RESPIRATORY PROTECTION (SPECIFIC TYPE): Use hydrocarbon vapor canister of supplied air respiratory protection in confined or enclosed spaces if needed.

VENTILATION

LOCAL EXHAUST: Recommended.

MECHANICAL (GENERAL): Use explosion-proof equipment.

SPECIAL: Use only with adequate ventilation.

OTHER: NO SMOKING or open lights.

PROTECTIVE GLOVES: Use chemical-resistant gloves.

EYE PROTECTION: Splash goggles or face shield.

OTHER PROTECTIVE EQUIPMENT: Use chemical-resistant apron or other clothing if needed to avoid repeated or prolonged skin contact.

SECTION IX - STORAGE AND SPECIAL PRECAUTIONS

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING: Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor, liquid and/or solid), all hazard precautions given in the data sheet must be observed. All 5 gallon pails and larger metal containers, including tank cars and tank trucks should be grounded and/or bonded when material is transferred. Emergency eyewash fountains and safety showers should be available in the immediate vicinity of potential exposure. Hydrocarbon solvents are basically non-conductors of electricity and can become electrostatically charged during mixing, filtering or pumping at high flow rates. If this charge reaches a sufficiently high level, sparks can form that may ignite the vapors of flammable liquids.
WARNING: Sudden release of hot organic chemical vapors or mists from process equipment operating at elevated temperature and pressure or sudden ingress of air into vacuum equipment, may result in ignitions without the presence of obvious ignition sources. Published "auto-ignition" or "ignition" temperature values cannot be treated as safe operating temperatures in chemical processes without analysis of the actual process conditions. Any use of this product in elevated temperature processes should be thoroughly evaluated to establish and maintain safe operating conditions.

OTHER PRECAUTIONS: Avoid breathing vapors. Avoid prolonged or repeated contact with skin. Remove contaminated clothing. Remove contaminated shoes and dry before reuse. Wash with soap and water after contact.

OTHER REGULATORY INFORMATION: The State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Prop 65) develops a list of chemicals that require specific warnings relating to cancer and/or reproductive toxicity. This product contains the following chemicals subject to the reporting requirements of the State of California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Prop 65).

<table>
<thead>
<tr>
<th>CHEMICAL</th>
<th>CAS #</th>

</tr>
</tbody>
</table>

The warning on the product states:

WARNING: USE OF THIS PRODUCT WILL EXPOSE YOU TO BENZENE WHICH IS KNOWN TO CAUSE CANCER AND TO TOLUENE WHICH IS KNOWN TO CAUSE BIRTH DEFECTS OR OTHER REPRODUCTIVE HARM.

*Not included in Section II as this chemical is less than .1% of the formula.
